GitHub || Linkend || Portfolio

I have the skill working closely with others at team environment and with a flexible approach to work.

Skills:

- **Comfortable**: JavaScript, ES6, React, Node.js, Rest API, MongoDB, Bootstrap4, React Bootstrap, JSON, HTML, HTML5, CSS3.

- **Familiar**: Redux, TypeScript, Express.js, Material-UI.

- **Tools**: Github, VS Code, Notepad++, Chrome Dev Tools, Heroku, Netlify, Firebase, Postman.

Projects:

1. BD-Shop: GitHub Client Side || GitHub Server Side || Live site

- Here people can buy product .
- Before buying you have to log in. For log in I use here firebase log in process.
- The data which you show here all load from backend.
- To work with back end I use mongodb.
- Here you can add product also.

2. Two-wheeler-repair: GitHub Client side || GitHub Server Side || Live Side

- Here you can take service.
- You can order service from here.
- All service are protected by private route .
- So you have to log in when you want any services.
- Here you also can add payment .
- Here you can add your review also

3. Champion League: GitHub Client side || live side

- This is a dynamic project.
- Here you can select a team.
- The team which you select you got the individual team information.
- The team is formed by male or female you got the idea by dynamic picture
